

OFOS

Ocean Floor Observing System

The emma technologies OFOS-System provides high-end electro-optical equipment, depth rated up to 6000m for seafloor observing campaigns.

The standard configuration includes:

- ➔ Energy Management System (Li Power Pack)
- ➔ Smart charger for Li Power Pack
- ➔ Data Telemetry (for coaxial cables)
- ➔ Remote or time controlled operations
- ➔ Topside unit as rackmount or ruggedised version
- ➔ Full HD video camera
- ➔ Optional Full HD Still camera
- ➔ Pressure Sensor
- ➔ Altimeter
- ➔ Current meter
